**ISO 9001:2015 for Max Tech Quality Certification Congratulations!**

**Congratulations** on Successfully Continuing the Quality Journey. The ISO 9001 family of standards is related to quality management systems and designed to help organizations meet and exceed their customer's requirements for quality products. This is the essence of ROHS Cert quality goals and objectives. ROHS Cert management is extremely proud of its workforce professionalism that made this accomplishment possible. In the days ahead, we will continue to improve on what we say we are doing by making fact-based decisions on measurements of our operational objectives and performances.

ISO9001 is based on quality management principles including consistently documented processes, strong focus on customer service, maintaining quality standards, continual review and improvement of process approach, as well as a dedicated management commitment to Quality management.

Max Tech is proud to announce that we have received our re-certification of ISO 9001 that will continue through 2026. ISO (International Organization for Standardization) is the Stat's largest Consultant and publisher of international standards.

CERTIFICATE NUMBER : 23DQKS50
